

GoblinGoblinGoblinGoblinGoblin

By JoshSolves

******(Rules are much easier to read on josh solves.com)****** **RULES:** *Goblins are both industrious and wildly unpredictable, thus the word goblin can indicate many different types of wordplay:*

****Anagram:** *Goblins blow things up, like, constantly. Ex. Passes on goblin side (4) would be DIES (side anagrammed).*

****Container/insertion:** *Goblins can and will eat anything, and are often piloting vehicles and getting into places they shouldn't. Ex. Totes made from river goblin's cats (5) would be CARTS (cats container). Note that goblins can go either way.*

****Hidden:** *Goblins are scavengers. Ex. Goblin comes home with netting (4) would be MESH (hidden in coMES Home).*

****Homophone:** *Goblins speech is kind of like English. Ex. Stockpile goblin money (5) would be CACHE (cash homophone).*

****Reverse:** *Retreat is a Goblin army's favorite tactic. Ex: "Flog goblin for sport" (4) would be GOLF !!!*

When the puzzle is completed, the circled letters can be re-arranged to spell a 14 letter word that describes you, the solver. Then go to and type GOBLIN [that word] into the search bar of Magic the Gathering Cards found at <https://gatherer.wizards.com/Pages/Default.aspx> for your final goblin.
